

## Exhibit-Design (Italian Edition)

La Green Economy è un nuovo modello di sviluppo economico rispettoso delle implicazioni ambientali e sociali, che da alcuni anni costituisce un punto di riferimento delle politiche di sostenibilità attuate da Regione Toscana. Il numero degli eventi organizzati dalla pubblica amministrazione e dalle aziende è sicuramente notevole e ben si comprende come sia strategico cercare di ridurre il peso ambientale, conformandosi a standard ecologici e prevedendo misure compensative per gli impatti che non possono essere ridotti all'origine. Un'organizzazione sostenibile degli eventi può anche risultare più conveniente dal punto di vista economico. Queste linee guida rappresentano un modello da seguire per i soggetti pubblici e privati che devono organizzare eventi ed appaltare la realizzazione di allestimenti temporanei. Lo strumento offre indicazioni per progettare, misurare e valutare in termini oggettivi il grado di eco-sostenibilità di uno spazio temporaneo.
