

Light in Landscape & Architecture

This volume showcases the amazing work of some of today's most ambitious architects and designers. Each project offers a fresh perspective of the use of this unusual resource. Beautiful, full-color photographs bring the proposals to life on the page, while detailed explanations, provided by the creators themselves, outline the techniques used and the ideas behind each of the creations. The projects on display here will surely be inspirational for anyone with an interest for modern design and make this book an indispensable reference for professionals and students.
