

Painful Masterpieces: Poetic Pieces of Painful Places

Silently I speak to paper that does not talk back to me. Instead it listens intently to what I have to say until my words have no other place to go but into the pages of chapters that tell the story of my life in poetic form. - Veronica Levett Johnson

Painful Masterpieces is a collection of significant poems and spoken words that were written during some pretty tough times in my life. I call them Painful Masterpieces because they are beautiful poetic works of art that have been birthed out of places of loneliness and shame, which led to depression and feelings of defeat. Through my freedom to release the negative energy poetically I've experienced the victory that was destined for me. The transformational power of poetry is something that can only be experienced once silent emotions and thoughts become visible words on paper. The creative release of those thoughts and emotions on paper become poetic pieces of art that can be shared with others to encourage, inspire, motivate, and even challenge all who will attend to the voice of the poet. Hear me, as I speak.
