

## The River

Diana Newport nearly drowns and finds herself on the razors edge between life and death. When she returns to the land of the living, she is terrorized with nightmares and visions about Ronald Truman, an executed serial killer who slaughtered and raped twenty-five women and children, strangling them with barbed wire. When the visions begin to come true, Diana realizes that Truman is back and only she can stop him from resuming his killing spree, if she doesnt become one of his victims.
