

A Field Guide to the Birds of Borneo, Sumatra, Java, and Bali: The Greater Sunda Islands

This book provides a complete identification guide to the birds of this important region, including descriptions and colour illustrations of all 820 species found there, many of which do not occur anywhere else. Information is provided on where to look for endemic and insular forms and on major birding localities. Introductory chapters discuss habitats, climate, land-use, and conservation. This volume is intended for reference and for pleasure, for amateur and professional ornithologists, for birdwatchers and for tourists to Indonesia and region.
