

## A Thane of Wessex

The Thane of Wessex takes place shortly before King Alfred's rule. The hero is robbed of land and title through bitter intrigues, and banned from the realm. But as he tries to leave the kingdom, he is followed by pursuers who are after his life. Soon Whistler adds one or two tasty conflicts of interest, and we've got a man in a mess how to do the right thing if you are right-less and without honor in the eyes of your former peers?
