

## Ali Baba and the Forty Thieves

The Baba Brothers, Kassim and Ali, live in the Persian town of Ababrahakebab in olden times. Whereas Kassim is wealthy and wise, Ali Baba is poor and stupid, with little to show for his life. Ali Babas luck changes when he discovers a cave full of jewels and other riches. However, when the owners of the cave, the forty thieves, discover that their secret cave is no longer secret, they decide to find out who has been into it and kill him. Suspecting suspicious going-on, Margeherita Anne DAnchovies, a pretty and intelligent slave girl, decides to take matters into her own hands to prevent the death of her master and to put an end to the thieving ways of the forty thieves. This version of the timeless tale of Ali Baba and the Forty Thieves is told here with eloquence, grace and articulacy. It gives modern readers a rare insight into how Persian society functioned back in the days of the Arabian Nights. The story is as relevant now as it was many many centuries ago, displaying the awesome power of good and the flawed forces of evil in conquest with each other. Oh yes, that sounds quite impressive. And in many many centuries to come, its relevance will remain equally as strong. So open this book now and marvel at the wonder and magic of Ali Baba and the Forty Thieves. Youll be glad you did. Well, youd better be glad you did. After all, youve paid good money for it and Caverswall Palace Publications dont accept refunds.
