

# AS Physics Mechanics Materials and Waves (Animated Science Physics Revision)

This is a new book for Unit 2 AQA students or similar courses. It covers all the main concepts in the course for Unit 2 and has lots of pictures and diagrams with equations clearly put for quick revision. The whole document is rich with images of real equipment and crucial concepts. Printed the material covers over 45 A4 pages, 13,000 words and many graphics and screen captures from teachers notes. It is an amazing culmination of all the experience of a Physics teacher of 11 years teaching experience. The title is also very cheap compared to the main publishers and worth a try!
