

Beginnings of Interior Environments (9th Edition)

With over 700 vivid images and illustrations along with the wisdom of numerous practicing designers, this book provides a practical approach to introductory interior design. Covering the profession for both commercial and residential environments, the Ninth Edition introduces readers to the history, design fundamentals, and building systems (construction, electrical, mechanical) of design. Exploring topics such as the space planning process, environmental sensitivity, and multicultural design, this book contains both the necessary information and applications readers need to be fully prepared for the field. For professionals with a career or interest in design, interior decorating, architecture, construction, carpentry, and environmental design.
