All proceeds from this anthology will go to The Cystic Fibrosis Trust. Think SF-based vampire fiction like I Am Legend and Necroscope and how they affected the vampire genre when they were first released. Dark Vampire SF that goes where the genre hasn't before. It is not just an anthology of hard science fiction, however. This book also contains examples of science fantasy as well as some classic vampire stories including an updated reprint from William F. Nolan. Also includes brand new stories from Peter Watts (from the Blindsight/Echopraxia universe), Laird Barron, Tim Waggoner, Bram Stoker Award-winning author Benjamin Kane Ethridge, John Palisano, Jason V Brock, Peter Giglio, Jonathan Templar, Taylor Grant, and many more!
