

## Learn to Draw Cars, Planes & Moving Machines: Step-by-step instructions for more than 25 high-powered vehicles

Learn to draw all of your favorite cars, planes, and vehicles step by step! Perfect for young artists-in-training, Learn to Draw Cars, Planes & Moving Machines offers a comprehensive drawing experience that includes step-by-step lessons, as well as full-color photographs, fun facts, trivia, quizzes, and much more. Children will enjoy the 64 pages of drawing instruction for a variety of vehicles, including planes, helicopters, tanks, and submarines. The book opens with a brief description of how to get started, using basic drawing tools and some sample drawing exercises to warm up. Each drawing lesson begins with a basic shape, such as a square, circle, or triangle, and progresses to a finished piece of artwork, making it easy for children to follow along. Along the way, engaging text describes interesting facts about each vehicle and what it is used for. With a mix of art instruction and fun trivia, Learn to Draw Cars, Planes & Moving Machines is the perfect way for children to discover more about their favorite vehicles, in addition to developing their artistic talents.
