

Charlies Run

When Charlie Bascombs parents announce that they are separating, he knows that even though they arent saying divorce, its only a matter of time. To Charlies mind his family is perfect, and he cant bear the idea that things wont be the same, so he decides to change his parents minds. He needs to do something big, something he would never do, to show them that hes serious. But his plan to keep his family together takes on a life of its own, and leads him further from his family than hed ever have guessed. In this moving novel, Charlie discovers, the hard way, that divorce isnt the worst thing that can happen to a kid. This title is included only in Juvenile 10.
