

The Bards Gift

Sixteen-year-old Astrid keeps mostly to herself, finding companionship in the stories her grandmother used to tell. She's too shy even to talk in front of Torolf, the young man she secretly dreams of. Then the Norse god of eloquence appears in Astrid's dreams and forces her to drink the Mead of Poetry. Suddenly, she's compelled to tell her stories. In public. Even in front of Torolf. Astrid is meant to use these stories to guide her people from starvation in Greenland to a better future in Markland. A place legends claim is the abode of dragons. But not all of her fierce and independent people are willing to follow a mere girl, even the chieftain's daughter--especially when she counsels peace. Some have other plans for the new land and want to use Astrid and her gift as a tool. Torolf never dreamed that quiet Astrid could choose him. Now he's stranded in Iceland as she sails in the opposite direction. To attain the promise of a future with Astrid, he'll have to attempt the impossible--sailing alone across the North Atlantic. Together, they might defy the plans the gods have made for them and change the fate of more than just their own people.
