

## Crazy Salad: Some Things About Women

The classic Crazy Salad, by screenwriting legend and novelist Nora Ephron, is an extremely funny, deceptively light look at a generation of women (and men) who helped shape the way we live now. In this distinctive, engaging, and simply hilarious view of a period of great upheaval in America, Ephron turns her keen eye and wonderful sense of humor to the media, politics, beauty products, and womens bodies. In the famous A Few Words About Breasts, for example, she tells us: If I had had them, I would have been a completely different person. I honestly believe that. Ephron brings her sharp pen to bear on the notable women of the time, and to a series of events ranging from Watergate to the Pillsbury Bake-Off. When it first appeared in 1975, Crazy Salad helped to illuminate a new American era--and helped us to laugh at our times and ourselves. This new edition will delight a fresh generation of readers.
