

Creatures of the Night: In Search of Ghosts, Vampires, Werewolves and Demons

Intrigued by some of the most sinister legends of Western civilization, Gregory Reece goes in search of answers to the question: why is our culture so obsessed by the eerie and the macabre? Why have the Twilight and True Blood series skyrocketed in popularity, with millions of readers and primetime television and movie adaptations? Whether tracking night-stalking werewolves, chanting black magic mantras with Satanists, or interviewing a modern-day Count Dracula, Reece is determined to uncover the truth in this bold and startling journey into a world that has so often seemed to lie beyond the limits of rational comprehension.
