

Lamashtu: The Bleeding

The ancient goddess Lamashtu has been reborn, and blood shall be spilled. Temperance has reached her sweet sixteen, and it isn't exactly what she pictured it to be. The mystery of her mother's disappearance is about to be resolved, but not in the way anyone would have hoped - except for the creatures of the night. Still fighting against the nature of the being she is about to become, Temperance falls into the hands of a false exorcist. The queen of vampires wants her daughter to become one of them, but she has already become something else. No one has survived such transformation before. She could die, or become the most powerful denizen of the night. But even in success, will the vampires and demons accept the rise of a new master?
