

Of Covens and Packs (The Watchtower Book 3)

Terin Global is on the brink of exposure. Something Detective Raleigh Darch could do with a simple warrant. Yet there are other problems. The increase of paranormal activity worries Jezryall and dregs up personal demons for some of her staff. A planned visit to the Spire-a forgotten relic from the ancient world leaves them with more questions than answers, along with a cryptic message from the spirit of a werewolf. One thing is certain; something is stirring within the bowels of Hell. Jezryall and her team must discover the reason behind the increase in demon activity before things become too big for even them to handle.
