

## David Copperfield (Illustrated)

Charles John Huffam Dickens (pron.: /tʃˈrɪz dɪkˈnɪz/; 7 February 1812 9 June 1870) was an English writer and social critic. He created some of the worlds most memorable fictional characters and is generally regarded as the greatest novelist of the Victorian period.[David Copperfield is the common name of the eighth novel by Charles Dickens, first published as a novel in 1850. Its full title is The Personal History, Adventures, Experience and Observation of David Copperfield the Younger of Blunderstone Rookery (Which He Never Meant to Publish on Any Account). Like most of his works, it originally appeared in serial form during the two preceding years. Many elements of the novel follow events in Dickens own life, and it is probably the most autobiographical of his novels.In the preface to the 1867 edition, Dickens wrote, ...like many fond parents, I have in my heart of hearts a favourite child. And his name is David Copperfield.
