

## The Phoenix Project:: This is it the Apocalypse

What is the Phoenix Project? We exist because civilization will end. We know it is not a matter of if but when. We cannot stop it from happening we cannot prevent it from happening. It will happen. Then why does the Phoenix Project exist? To rebuild civilization after it happens. Our recruits are specialists in medical, engineering and the military fields with the knowledge needed to rebuild. They along with supplies and equipment will be stored in cryogenic hibernation to sleep through the collapse. At the appropriate time, they will awaken. Then like the preverbal Phoenix rising from its ashes, we will rise up to help rebuild the country from the ruins. That is the Phoenix Project. Exert from the Phoenix Project indoctrination. Phoenix Reconnaissance Team 13 is awakened by a natural disaster forcing them to flee their cryogenic facility. Finding themselves near the shattered remains of the City of Los Angeles fifty years after the apocalypse with no contact with Phoenix base the team ventures out in to the shattered city in search of answers. They soon become embroiled in a war in the gang-infested city of plague victims. As the team searches for some place safe to stay and try to contact Phoenix base they must rely on their training, equipment and each other if they are to survive in this new age.

The Phoenix billboard features Trumps face flanked by mushroom clouds and dollar signs evocative of swastikas. It seems to silently scream, The apocalypse is nigh! Preservation, said owning the billboard gives us more freedom to host controversial projects on it. .
