

Drawing and Cartooning Myths, Magic and Legends: A Step-by-Step Guide for the Aspiring Myth-Maker (Dover How to Draw)

From Merlin, the master magician, to evil goblins, noble warriors, castle witches, and wild beasts, this guide abounds in figures from ancient myth and it teaches young would-be artists how to give life to their very own legends. Tony Tallarico, author of the popular Where Are They? series, starts each lesson with a few simple shapes. In four easy-to-follow steps, he shows how to add details that result in captivating portraits of dragons, wizards, trolls, and other characters. Featuring over 40 different fun-filled lessons, this guide includes a multi-paneled cartoon strip that gives kids the chance to practice their new skills. They'll sketch some supernatural characters to add the finishing touches to an adventure involving the rescue of a princess from a dark castle.
