

## Russian Reader: Lermontofs Modern Hero (Classic Reprint)

Give the student a book and a dictionary, he will doubtless succeed in working out the meaning of a few pages or sentences; but at what cost of time and labour? If, on the other hand, boys, this labour may have the effect of quickening their mental faculties; but those who study Russian are for the most part men, whose faculties are more or less trained; and busy men of the Diplomatic or Military services, to whom time is of the first importance. Now my object in bringing out this Reader is to lighten the difficulties in the early stages, and so to make progress more rapid. The translation has been made as close as the idioms of the two languages admit that the student may not be continually interrupted by having to hunt up words; and he who works carefully through this book, learning by heart, translating, and retranslating as he goes, cannot fail to pick up a good deal.
