

The New Flooring Idea Book: Creating Style from the Ground Up

The right floor treatment can drastically improve the look and feel of a room. The New Flooring Idea Book will show readers the often-untapped design potential that well thought-out floor decor can add to a living space. This book offers practical advice on how to assess existing flooring, how to plan for change, and how to use flooring to create stylish interiors. Twenty-five floor makeovers are profiled with information on the best new flooring concepts. Each section provides in-depth information and inspiration on types of flooring, choosing flooring with style in mind, and reinvigorating, replacing, or adding pattern and color to existing flooring. By considering the floor as part of the overall decorating scheme, readers will understand that the right floor is a key element that can set the tone and atmosphere for the entire space.

The ranch house is noted for its long, close-to-the-ground profile, and wide open layout. The house style fused modernist ideas and styles with notions of the American Western period of wide open spaces to create a very informal and casual living style. However, it does not become a raised ranch simply by having two floors. **Ranch-style house - Wikipedia** The New Flooring Idea Book: Creating Style from the Ground Up [Regina Cole] on . *FREE* shipping on qualifying offers.
