

## Earths Survivors Settlement Earth: Book Two

The second Earths Survivors Settlement Earth book picks up our survivors as they begin to make their way in a vastly changed world. The survivors from Glennville are making their way to the larger city Of Rochester to the west, hoping that there will still be someone in power. Someone to begin to put things in order once more. Joe Miller and Arlene are making their way across a ruined country looking for other survivors as they go. The destruction and emptiness is devastating in places. In other places those who have survived seem convinced that any other survivors must die. For Willie Le fray death was no escape, but enslavement to the same master he served in life. And there is no death that can take him away from it this time. He has found himself to be the right hand man for the most powerful man in the world.. Luther is only on Earth for a short period of time, but he is determined to make all of Earth his own before that time is finished. The hidden military installation below the city of Glennville holds the key to world domination that he hungers for. Those who are destined to help him attain his throne are on the way to help him. The Earths Survivors have begun to draw together. They assumed they had already fought the fight to stay alive, but they were wrong. Now begins the real fight to stay alive, and be Earths Survivors...
