

Electric Heat (A Raven Investigations Novel Book 3)

ANCIENT MAGIC HAS BEEN UNLEASHED INTO THE WORLD. ITS WILLING TO DO ANYTHING TO SURVIVE, EVEN IF IT MEANS WAR. ONLY ONE WOMAN CAN KILL IT OR SET IT FREE. The local witches coven offers Raven a trade: Surrender herself to them for one week or give up a member of her pack. She thought they wanted to study her, but Raven discovers something far worse murder. To save her pack, Raven must make the ultimate sacrifice her freedom. WHEN DARKNESS IS UNLEASHED NO ONE IS SAFE. Witches are being drained of power and killed using a wild magic that's been dormant for centuries. Tasked with locating the one responsible for releasing it, Raven soon finds herself the prey rather than the hunter. The more lives the magic claims, the stronger the killer becomes. As she and her pack scramble to unravel the secrets of the coven, her own beast starts to wake, and she begins to wonder which is more dangerous the killer or her beast. But one thing is sure, if the coven and pack don't learn to work together, none of them will survive the coming storm. A Raven Investigations Novel: Book 3
