

Gabriels Journey (Evan Gabriel Trilogy)

GABRIELS JOURNEY: THE COMPLETE EVAN GABRIEL TRILOGY Follow North American Federation Navy Commander Evan Gabriel as he crosses the galaxy searching for Redemption, Returns to where it all began, then finally seeks Revenge on those responsible. Military science-fiction adventure at its best!---GABRIELS REDEMPTION, Book One North American Federation Navy Commander Evan Gabriel was dishonorably discharged after losing his covert team on a far off world called Eden. Now, hes being offered an opportunity to command a new team, on a new world, with a new mission, but the true motives behind the mission are unclear. From the decaying Caribbean to politically-charged South America, from the slums of Mars to a tiny colony on a planet six hundred light years from Earth, Gabriels Redemption is a near-future military science fiction story of a personal journey seen from the perspective of a soldier who has lost everything; one who desperately needs to redeem himself not only in his governments eyes, but also his own. Interstellar action and political intrigue mix with one-on-one battles on the surface of a frozen planet in this exciting tale of salvation. Approximately 66,000 words. GABRIELS RETURN, Book Two On the far-off icebound planet of Poliahu, North American Federation Navy Commander Evan Gabriel suffered the loss of several team members in order to free a native species and save his brother. Now he is being called away on a new mission by a friend in trouble, and by a name from his distant past. He and his surviving team must again travel across the galaxy to the planet where he lost his naval command, and his original team, so many years ago: Eden. Evan Gabriel must face three distinct threats on Eden: the well-armed terrorist group that has been raiding Eden City, the dangerous planet itself, and his own

haunting memories of his past. Gabriels Return continues the epic science fiction/adventure trilogy with characters new and old, devious political intrigue on the moon and Mars, and deadly jungle combat on Eden. Approximately 87,000 words

GABRIELS REVENGE, Book Three

A missile has no conscience. It is an inanimate steel object: cold, emotionless. But once ignited, it burns white hot inside, and cannot be shut off. Fired in combat, it has but one objective: the total destruction of its intended target. And it will only stop when its objective has been achieved, or it runs out of fuel. Not all missiles are made of steel.

North American Federation Navy Commander Evan Gabriel thought it was over. Returning from a mission on the far-off world of Eden, he finds that Mars is in a state of political upheaval. Two major dome cities are now under the control of ambitious and ruthless men backed by the scheming South American Republic. Friends are in trouble, Renay Gesselli is missing, and the future of a world is in flux while rival governments bicker behind closed doors. From the ice-bound planet of Poliahu, to the dangerous jungle world of Eden, and back to his adopted home of Mars, Evan Gabriel has witnessed death follow him. Now, hes turning the tables, and no force would stand in his way.

Approximately 80,000 words

REVIEWS: The action in this series rocks, complete with super-cool weapons and technology. Umstead takes a complex cast and gives them each a distinct personality that makes the team dynamic just great. - L. Petersen I am a huge fan of well-written science fiction, and the Evan Gabriel series hasnt disappointed... layered with dimension and feeling unlike quite a few other sci-fi titles out there. - N. Holderby Umstead has created what I can only describe as a Tom Clancy-esque world a few hundred years into the future. - W.E. Lind
