

Hogfather (Discworld Book 20)

Who would want to harm Discworlds most beloved icon? Very few things are held sacred in this twisted, corrupt, heartless -- and oddly familiar -- universe, but the Hogfather is one of them. Yet here it is, Hogswatchnight, that most joyous and acquisitive of times, and the jolly old, red-suited gift-giver has vanished without a trace. And theres something shady going on involving an uncommonly psychotic member of the Assassins Guild and certain representatives of Ankh-Morporks rather extensive criminal element. Suddenly Discworlds entire myth system is unraveling at an alarming rate. Drastic measures must be taken, which is why Death himself is taking up the reins of the fat mans vacated sleigh ... which, in turn, has Deaths level-headed granddaughter, Susan, racing to unravel the nasty, humbuggian mess before the holiday season goes straight to hell and takes everyone along with it.
