

# Home Security, 3rd Edition: How to Keep Your Home and Family Safe from Crime

A burglary takes place on average every 30 seconds. This book will show you how you can reduce the risk of it happening to you. There is a lot that the average person can do to protect themselves, their family and their property. This book will show you how to perform a security review on your home and lifestyle: - how to identify a range of vulnerabilities, threats and risks; and - how to take the countermeasures that will make it highly unlikely that you become a victim of crime. The measures are mostly simple, and all are designed to be implemented with the minimum of cost and effort.
