

Im Growing! (Lets Read-And-Find-Out Science)

Look at me --Im growing!With her trademark simple words and delightful pictures, Aliko explains how and why we grow. Our arms and legs, our hair and toenails, our muscles, bones, and skin all grow from the moment we are born.Some people grow faster than others; some people grow more than others. With the help of good healthy food, we all grow in our own way and at our own speed.It will happen to you, too!
