

The Family Coven

When the ancient vampire, Alexander Nevsky tries to bring his family coven into a new age of morality, he discovers those he holds most dear have been plotting against him. Alexander, the son of a Bulgarian prince, was bred for greatness. As the 13th century Prince of Novgorod, he founded the original city of Moscow, and defended its sovereignty from the likes of Ivan III. A great leader with immense wealth and power, Alexander feared no man. But in the year 1269 he was confronted by the greatest of fears-the end of his life. Yet with the end of his human life came a new life. The Family Coven is an epic tale that takes you on an adventure through the life of Alexander Nevsky, the former prince, who has now become the leader of a new race of man. Its the story of a vampire desperately searching for the meaning of his existence. Alone in a world now alien to him, he begins to build his own family, discovers he can still experience passion and romance, and in the process begins to find whats left of his humanity. Love and family, death and betrayal, and a moral reawakening that leads Alexander to confront the worst natures of his kind in order to bring his brethren into the 21st century. With the ultimate irony revealing a man who only finds his humanity after he stops being human.
