

Meet the Beatles!

Meet Natasha, a teenager in the year 2019, who falls while hiking and enters into a coma. While in a coma, her soul takes a sabbatical too far back in time and enters the body of Cynthia Powell, John Lennons girlfriend in 1961. From 1961 to 1969, it battles with Cynthias soul and tries to prevent the breakup of the band with comical and frightening results. Cynthias soul occupies Natashas body and experiences the future. Armed with Natashas knowledge of the future, Cynthia in 1961, appears to be some whacky bird (even The Beatles think so!). A funny script.
