

## Mexico 1554 -2012 (Spanish Edition)

A la sabiduria y el ingenio de Francisco Cervantes de Salazar se debe el libro Mexico en 1554, al cual la presente obra rinde homenaje desde el titulo. Apenas tres decadas despues de la caida de la gran Tenochtitlan, el erudito recorre con justa admiracion las calles de la nueva ciudad que revelaba la ciencia y la paciencia con la cual el mestizaje emprendia su dolorosa, inevitable evolucion y donde paulatinamente se establecian los significados y significantes de una urbe, sus senas de identidad, sus instituciones y los edificios que las alojaban. Mas de cuatro siglos y medio despues, seguimos la ruta trazada por el ilustre humanista para leer nuestra ciudad de manera sincronica y diacronica. Para ver que ha sucedido en estos anos con ella y para demostrar, como decia Gabriel Garcia Marquez de Cartagena de Indias, la nobleza de una ciudad que no hemos podido destruir luego de tantos siglos, a pesar de nosotros y de los elementos
