

Montana de Luz / The Mountain of Light

Picture Book - Primary Grades Montana de Luz is a home for children who are affected by HIV/AIDS; it is located on top of a small, beautiful mountain in south-central Honduras. Many of the children that come to the mountain were orphaned as a result of their parents dying from AIDS or becoming too ill to care for them. Here, they are provided with adequate food, medicine, clothing, shelter and a place where they know that they are loved. Here, they have a chance to live longer, productive lives. This book provides children with a look at others who are infected with HIV/AIDS, and honestly shares their story. Read it and capture the wonder of this place of love and light!
