

More Stories from the Twilight Zone

Rod Serling became a cultural icon of the 20th Century with his creation The Twilight Zone, which more than 50 years later was nominated by the Writers Guild of America as the third best written television series of the past seventy years. Of the 156 Twilight Zone episodes, Serling wrote 92. In the early 1960s, Rod Serling, novelized nineteen (19) of his scripts and published them in three volumes - this is the second. In this volume, you will read about a convict sentenced to a lifetime of solitary confinement seeking companionship to avert the nightmare of perpetual loneliness; a failure of a man given elusive magical powers; another story of magic, a little boy, and his hero, a boxer at the end of his rope; an over-worked executive seeking solace in a place where he can live his life full measure; an airplane journey back in time; and a story of love, hate, magic and forgiveness.
