

Of Bees and Mist: A Novel

Erick Setiawan's richly atmospheric debut is a beautiful, engrossing fable of three generations of women in two families; their destructive jealousies, their loves and losses, their sacrifices and deeply rooted deceptions, and their triumphs. *Of Bees and Mist* is a fable of one woman's determination to overcome the haunting magic that is created by the people she loves and the oppressive secrets behind their broken lives. Raised in a sepulchral house where ghosts dwell in mirrors, Meridia spends her childhood feeling neglected and invisible. Every evening her father vanishes inside a blue mist without so much as an explanation, and her mother spends her days beheading cauliflowers in the kitchen. At sixteen, desperate to escape, Meridia marries a tenderhearted young man. Little does she suspect that his family is harboring secrets of their own. There is a grave hidden in the garden. There are two sisters groomed from birth to despise each other. And there is Eva, the formidable matriarch whose grievances swarm the air like an army of bees, the wickedest mother-in-law imaginable. Erick Setiawan takes Meridia on a tumultuous ride of hope and heartbreak as she struggles to keep her young family together and discovers long-kept secrets about her own past as well as the shocking truths about her husband's family.
