Im a man you never knew, nor ever, ever will
Who never saw the bullet coming
Even though Id seen it clear, there, in the air
Hovering, for thirteen days.
The Texas Revolution is the last untouched bastard child of American folklore, not yet beaten to death with presentism by those who whitewash this nations ghosts and annex them as heroes, just as we once annexed our 28th state. A handful of soldiers alive at midnight, dead at dawn stood together for a cause as certain as the outcome had to be. The truth was in the math. Hundreds holding back thousands. But that rabble of soldiers haunts us with questions even now, questions that get mired by the romanticism of revisionist history until the truth is lost to legend. CEE is not afraid of the truth. This collection of poems about the Texas Revolution and the Siege of the Alamo is in-your-face, unapologetic, sharp, witty, poignant, necessary. These pieces bring tales and legends of the old clashing against the sleek, shiny propaganda machine of the new; and they reject presentism with teeth and nails bared. This is not for the faint of heart, not for those who worship heroes, not for those who whitewash history and are afraid to let it stand as it did, without waving a banner over its dead body. The book also contains full-color illustrations of the Texas Centennial in blinding juxtaposition to the stark, truthful words. ~~~~~Samples:~~~~~With Apologies to Rose Bonne (The Halls of Ives) There were more damned beings at The Alamo, there If you read works of fiction Which, fiction should truly be said, fictational Everyone with a story is a reporter, it seems Every story about the battle Until the battle Is dictated, terbacky-chaw Pull ye up a pickle barrel, pard, come learn about The cat that was there And the dog that was there And the girl that was there And the boy that was there The 1836 populace of Poughkeepsie,

CEE is studded with nails, knives, teeth,
and claws. The poetry juxtaposes scenes
from the Alamo with scenes from more
modern times, while politicians bleat and
war machines clank in the background.
CEEs overriding plea is for humans to step
forward and to think as individuals in what
appears to be an endless struggle against
the grinding gears of the faceless,
ubiquitous, sociopolitical machine. John

imperfections away. This book may be the
