

Acting on Faith

In this first book of a series, *Acting on Faith*, Godfrey Eagleheart, a performer of the stage and lifetime student of acting, history, and magic, introduces methods for all actors to combine the traditions of ancient storytelling, spirituality, and magic into their craft. By so doing, actors learn to integrate their love of the craft, history, and personal spiritual beliefs into better performances that bring more meaning to this noble vocation. When the actor performs with a larger purpose and mission, it transforms the mundane into the truly divine. If you act and yearn for more meaning, this book is the place to start!
