

A Less Perfect Union

Another war in the Middle East brings General Charles Easley and coalition forces to the country of Yemen. The number of casualties continues to increase from the enemys use of devastating improvised explosive devices. When the generals son, Paul, becomes a victim of the violence, he discovers an unthinkable truth that will force him to question his loyalty. Back in the United States, Pastor Roy Campbell wants change. Believing Americans have abandoned morality, Roy deepens his commitment with the ultra-conservative Purist Party. Roy is uprooted from his rural life and soon finds himself among the most powerful people in the country. Ultimately, the two worlds collide to create a perfect storm that will change America. Forever. According to businessman and technological genius Hanson Davis, it is not a storm at all, but a symphony of notes brought together in perfect harmony to create what he loves most. Chaos.
