

The Comet Cometh: One Fans Unauthorized Critique of Adventure Times Sixth Season

From vagabond dads to primordial space demons, the sixth season of the popular animated Cartoon Network series Adventure Time covered a massive amount of ground, story-wise. But the season was also the shows most emotionally and philosophically complex year. Topics as heavy as depression, loneliness, love, loss, sexuality, existentialism, and embracing Destiny were all discussed. This book, which features critical reviews of all 43 of the seasons episodes, examines each installment, determining which ones were rousing successes and which ones fell flatter than a bacon pancake.
