

Gender-swapped Fairy Tales: Thumbelina & The Tinder-Box (Translated)

All-original additions, embellishments and descriptions to Hans Christian Andersons classic fairy tales Re-written content to provide context and clarity All characters gender-swapped to provide a unique gendered perspective on these classic literary texts Introduction by Eve Sinning Produced in collaboration with the Gender and Literature Research Council Hans Christian Andersons classic original texts of Thumbelina & The Tinder-Box are turned on their head and given new life by swapping the gender of every character. Embellishments, details and descriptions have been added to help the story read more clearly, but these stories remain faithful to the original and beautiful texts. Queens become Kings, maids become servants, and the heroines of these well-loved stories become heroes instead. By swapping the genders, these stories can be read in a new light and from interesting new perspectives. In these stories, women are rich and powerful characters, who control the fates of men and steal them away in the night to marry them. They are liberators and rescuers, soldiers and murderers. Meanwhile, the actions and motivations of male characters are turned on their heads and they are given interesting new freedoms and motivations. They are frightened and vulnerable, fair and graceful, dreamers and schemers. Subversive and surprising, these gender-swapped versions of two classic Hans Christian Anderson stories will make you see your favourite fairy tales in a whole new light!
