

Creepy Crawlies (Ready, Set, Draw!)

A praying mantis or scorpion could be tough to draw. They have body segments, lots of legs, and antennae. Getting these right might be hard for even an experienced artist! Readers can draw these and many more bugs in just six steps! Clear descriptions accompanied by examples of each drawing step guide readers through 13 cartoons, from sketching the body shape to adding details. Aided by the fun, full-color layout and drawing tips, readers can make impressive drawings of a tarantula, hornet, and even a butterfly!
