

## Roads of Madness (Island of Fog, Book 5)

Emily Stanton was sick. They all knew it was a matter of time before she became too sick to walk. They had to make it to safety soon. But where was it safe? The city? Their old island? Hal, Robbie, Abigail, and a very sick Emily know their island is just along the coast beyond the city. There they hope to find a way back to Miss Simones world. But the bleak, deserted roads ahead are home to survivors of a terrible virus. Their skin still burns and itches after all these years, a suffering that just wont end. The biosuited military calls them scraggs. Marked by lesions and scars, theyre easy to recognize ... and best avoided. Under normal circumstances, the journey would be fairly simple. Even the crazy scraggs are no match for a fire-breathing dragon, an ogre, and a naga. And theres no way they could catch a nimble faerie! But after the recent phoenix rebirth that dried up all the magic, the shapeshifters find they can no longer transform. **ROADS OF MADNESS**, the fifth book in the Island of Fog series, pits Hal and his friends against an enemy worse than dragons -- people!
