

Seeds of Corruption: The Awakened Book Four

The All Powerful is dead, but the scars of his influence remain, haunting Kael's memories and discoloring his outlook. Seeking closure, Kael retraces the steps of his past. When he discovers that his father may still be alive, the course of his life once again takes an unexpected turn. Determined to answer the most profound questions of his childhood, Kael ventures across the fractured physical dimension. What awaits him is an advanced civilization of private armies and foreign weaponry, and only one path leads to his goal. Entering a covert war of intelligence and paramilitary operations, Kael must adapt to this new world and confront the possibility that his own destiny is just beginning. The seeds of corruption have taken root, but the Awakened has come. In book four of his Amazon bestselling series, Jason Tesar's epic saga weaves through the jungles of South America to the industrial cityscapes of Scandinavia, taking readers on an action-packed journey that fuses the genres of sci-fantasy and military fiction.
