

## Shadowborn (Light & Shadow series Book 1)

You, Catwin, no longer exist. You no longer have a fate of your own, a will of your own, or indeed a soul of your own. You will go where Miriel goes, you will watch instead of being watched, you will hear instead of being heard. Catwin has always been good at being unseen that is, until one fateful mistake brings her to the attention of the Duke of Voltur: the commander of the bloodiest battle in living memory, a man of legendary ruthlessness who is determined to be the power behind the throne. To this end, he has chosen Catwin to be a Shadowspy, shield, and blade to his niece Miriel as she works to catch the eye of the King. But the Duke's carefully laid plans are only a piece of the intrigue swirling within the royal court. Shadows gather: legacies of the centuries-long rivalries for power, old betrayals, the endless plots of the courtiers, and the murmur of rebellion in the southern provinces. Greater forces than Catwin can imagine are massed against her, determined to eliminate Miriel and impose a new order of their own. If Catwin and Miriel are to survive, they must learn quickly who to trust, and when to turn their skills against the very people who have trained them...
