

Shepherds Quest (The Broken Key Book 1)

Shepherds Quest begins a story about three lads from the small town of Quillim: Riyan Borenson, Chadric Kelon, and Bartholomew Agreani. When Riyan stumbles upon an ancient burial tomb, he and the others soon discover deep in the tombs bowels, the fabled King's Horde. A place reputedly holding a vast fortune. However, before they can gain access to the King's Horde, they must first recover the segments of a key that will open the sigil inscribed portal. One segment was discovered within the ancient burial tomb clutched in the hand of a long dead thief. Somehow they must find the remaining segments of the key and open the Horde before word gets out. For should others learn of what they found, less scrupulous men will quickly be after them to claim the Horde for themselves. Their quest for the remaining segments of The Broken Key ultimately leads them to a place located deep within hostile goblin territory, a place where even the goblins fear to go.
