

The Wolf of the Highlands - Episode 1-4

Senserial offers e-books that can be read in an exciting series style, with an episode being released every week. This way, much like a favourite TV series, readers can have something to look forward to weekly. While all of Senserials e-books can be downloaded in full and read in the traditional style, readers who want something extraordinary can opt to read the books with impressive graphics and a musical score to enhance their reading experience. This helps readers further immerse themselves into the colorful worlds portrayed in each series. This is an especially excellent feature to use during storytelling with kids, or simply anytime you want to liven up your reading time. Description: Ray Barrett is a man struggling to forget a life that brought him nothing but heartache and disappointment. He seeks solace in the mountains where he encounters a lone wolf who begins to follow him. Little does he know that this wolf is not what he appears to be, but someone who will take him on a quest through different experiences that span vast periods of time; experiences that will teach him valuable lessons about himself and life.
