

Embracing the Wolf (The Anna Avery Series)

For the first time, Anna Avery was looking forward to the future. She's mated to her soul mate. The pack has become her new family and she has friends she can confide in. She had every reason to look ahead, until a vision put her future happiness in jeopardy. Someone is set on destroying her mate, Adam, and only Anna can prevent this possible future. While trying to unravel the hazy web of her premonition, she finds out the annual pack conference will take place on her mountain. And Adam's parents will be attending. As only a made wolf, Anna will have to face their prejudice and possibly make the hardest decision she has ever had to make. Because saving Adam's life might just mean walking away from him for forever.
