

Subterranean: Tales of Dark Fantasy

Fantasy comes in all shades, from gentle tales of elves and fairies, to the blackest of horrors. Subterranean: Tales of Dark Fantasy tends toward the darker edges, where the fantastic mixes with the horrific. With all original tales by a number of SubPress favorites, and writers new to our stable, we've aimed to illuminate these shadowed corners, to bring into the light the creatures that venture forth from the sea, those that alter our reality to suit their sinister needs, and others who head into territory so bleak it's best left undescribed.
