

Taking Cerebral Palsy to School

Even though Chad has cerebral palsy, he can still attend school and do many of the same things as his classmates. Written from Chads perspective, this book answers many of the questions his classmates have but may be too scared or uncomfortable to ask. Children, teachers, school nurses, parents, and caregivers will learn about what cerebral palsy is, the different kinds of cerebral palsy, and special equipment that is available to help kids with cerebral palsy. This book also includes an experiment that allows children without cerebral palsy to experience what the condition may feel like.
