

## The Wind Riders (Tales of the Lore Valley)

The Wind Riders. Fabled pirates, who sail the skies on magic airships, protecting the weak and harrassing the tyrannical Clerics who rule the giant city of Tyr. Their very name conjures up dreams of freedom and whispers of hope amongst the slaves forced to mine Mergoran crystals in the mountains, the only known source of magic in the world. That is, until the Wind Riders are attacked and nearly destroyed by the Clerics, who have somehow managed to build an airship of their own. With many of their ships destroyed and their people dead, the surviving Wind Riders are forced to send a small group of volunteers into the heart of Tyr, the den of their hated enemies. They must find allies to help them purify crystals, the only way the Wind Riders can continue to fly their remaining ships. Failure would mean certain death for everyone ever known as a Wind Rider, as Tyr prepares its next attack, one that will eradicate them from existence.
