

The World of Kurt Vonnegut: Room 223 (Kindle Worlds Novella)

Noel Constant is being inexorably pulled west. Why, he hasn't a clue, until he's by the road one cold and rainy night. There Winston Niles Roomford materializes forth from his chrono-synclastic infundibulum to tell Noel he must get to the West Coast, and a Room 223 waiting for him there. What follows are years of humorous and satirical stories as Noel makes his way across the country, guided by Winston as he materializes every 472 days. Neither knows exactly what's going on, but it's clear that if they can find a series of letters they'll unlock the secret that will make Winston's own future possible. It all awaits Noel in Room 223. For readers of *The Sirens of Titan*, you won't be disappointed. The fun and zany antics of that book are on full display here, ensuring that Kurt Vonnegut's tradition of humor and satire will continue well into the 21st century!
